

## Sage Pro Future Product Themes

Sage Pro is an incredibly powerful and full-featured solution and we are committed to making it even better! Along with the themes of our Product Roadmap, we use a Product Backlog as our living prioritized list of the improvements currently under consideration as we plan for each new release. This backlog represents the most frequently requested customer improvements. Based on our customers' feedback, business partner input, survey results, customer site visit observations and market analysis, we select the most frequently requested improvements to include in future releases.

The following is a sampling of the anticipated themes and estimated release dates through 2014.<sup>1</sup>

Version	Themes

*Note: Maintenance improvements are provided for Sage Pro approximately three times a year and supplemented with additional updates on an "as needed" basis.*

## Your Feedback is Important!

Sage is committed to your business' success and welcomes feedback on how we can improve the software to continue to meet your needs. As plans progress on each of our future releases we will incorporate many of the features and enhancement requests that we receive from our customers. Please submit your enhancement suggestions to our Product Management department at <http://www.sageproerp.com/products/feedback/>.
